FALSE TEETH MENACE

Improperly Fitted, They May Cause Mouth Cancer, Says Doctor.

New York, March 13.—The plates used for supporting false teeth, when imperfectly fitted, are proving such a prolific source of cancer that a note of warning is sounded by Dr C. Everett Field, Director of the Radium Institute, in the Journal of the American Medical Association. "There have come under my observation as director of the Radium Institute of New York City," he says "many instances in which faulty artificial dentures have caused the development of malignant growths along the line of maxiliary processes.

"The mouth, with its tender membranes, is peculiarly subject to injuries which are difficult to heal. If there be a predisposition toward cancer, it is likely that it will crop out in any region where the soil has been suitably prepared to foster the growth of malignant cells."

Preston is said to have told the Lancaster police that the shooting was accidental. He is expected at the Belair jail tomorrow to await action of the grand jury.

WORK ON PEACE TREATY

Likely to be Completed This Week—Kiel Canal Must be Opened, as Well as the Rhine—Germany to be Given Two Months to Comply.

Paris, March 13.—All reports from Germany indicate that the Ebert government, growing weaker daily, is eagerly awaiting the allied summons to send its representatives to the final session of the Peace Conference.

A train already has been ordered to be in readiness. The German delegation is said to consist of 200 men. It is still uncertain how and where they are to be lodged here. It is possible they will remain quartered on the special train. The German plenipotentiaries are expected to object to every item in the final treaty of peace, but the allies and America are ready to call their "chief of police," Marshal Foch, to give due emphasis to the necessity on the Germans' part to "sign on the dotted line."

The peace treaty with Germany is likely to be completed this week, if the present schedule of the Supreme War Council is maintained.

Included in the terms discussed yesterday were disposition of the German cables and the future status of Helgoland. The question of what is to become of the German navy was not discussed.

The waterways commission submitted a report for incusion in the preliminary peace treaty providing the Kiel Canal shall be opened for free passage of warships and merchantmen in peace time. The canal would remain under control of Germany, but its fortifications would be dismantled.

The commission also recommended that the Rhine be opened to navigation for France and other countries bordering on it.

The Temps said today that Germany will be given two months to comply with the military and naval terms of the preliminary peace treaty.

London, March 13.—The Paris correspondent of the London Chronicle says the allies have agreed to limit the German fleet to six battleships five cruisers, twelve 800-ton destroyers and twenty-six smaller destroyers.

Washington, March 13.—The opinion was expressed yesterday by high government officials that peace may be an accomplished fact without a ratification of the peace treaty by the United States Senate.

All that will be necessary it is held will be for the President to issue a proclamation when the treaty actually is signed. That was done, it was stated, when the treaty of peace between the United States and Spain was signed.

GETS $75,000 FOR INJURY

Cleveland Man Awarded Record Damage Against Railroad.

Cleveland, March 13.—All records for personal injury damages in Ohio courts were broken yesterday when a jury in Common Pleas Court awarded Victor D. Miller, of this city, $75,000 against the Pennsylvania Railroad and the Toledo, Columbus and Ohio Railroad, a subsidiary line, for the loss of both legs. Miller sued for $100,000.

The highest previous verdict in a county court for personal injuries was $55,000.

TROOPS THREATEN SHIP

293 British Demand to be Put Ashore and Given Fare Home

Halifax, March 13.—When the transport Toloa docked here yesterday, with her captain reporting a threat by 293 British troops in her steerage to sink the vessel unless they were put ashore and given transportation to their homes in the United States, steamship officials went aboard to interview the complaining soldiers.

They found that 50 of the men had sufficient funds to cover their railroad fares and immigration head taxes, which were reported to have been insisted upon by American immigration authorities. The others, it was stated, would be held aboard the ship, which will sail Friday for New York whither she was bound after discharging Canadian troops here, when a wireless message recalled her to Halifax to coal, because of the harbor strike at the American port. This order keeping the men aboard was issued in spite of fears expressed by Captain Jackson of violence by the soldiers.

Refers to Lenine and Trotzky as "Foremost Statesmen of the Age."

Cleveland, Ohio, March 13.—In what may be his farewell public address, before he begins serving a ten years' sentence imposed by the Federal court here on a charge of violating the espionage act, Eugene V. Debs, Socialistic leader, last night upheld the Bolshevist rule in Russia and referred to Lenine and Trotzky as the "foremost statesmen of the age."

Debs said the judges of the United States Supreme Court were "begowned, bewhiskered, bepowdered old fossils, who have never decided anything."

Referring to the prison term he faces, he reiterated his opposition to the law he violated "while the war was in progress."

CONDITIONS IN BERLIN

Commander of Government Troops Despairs of Mastering Spartacan Situation—Centre of City Scene of Gayety.

London, March 13.—A Berlin dispatch, dated "Tuesday evening," just received here, says:

"The commander of the government troops despairs of mastering the Spartacan situation."

Copenhagen, March 13.—Spartacans have armed a mob of 100,000, including criminals and army deserters, according to police estimates, Berlin dispatches report.

The Berlin revolt is being directed by former Police President Eichorn by telephone from Brunswick, where he is living under an alias.

Insurgents were reported to be dropping aerial bombs on quiet portions of the city.

Basle, March 13.Martial law has been proclaimed in the West Prussian districts of Brieen, Thorn and Kulm, owing to the advance of Spartacan forces from the east.

The dispatch would indicate the Spartacans are advancing upon the districts referred to from Russian Poland. Thorn is situated on the Vistula river, just inside the Russo-German boundary. Briesen is 200 miles northeast of Thorn and Kulm twenty-five miles north. From the wording of the dispatch it would seem the "Spartacans" either are under direction of the Russian Bolsheviki, or the name has been applied to the Bolsheviki themselves.

Berlin, March 13.—Berlin is menaced anew by Spartacan outbreaks. Government troops, after desperate fighting, captured the greater part of the suburb of Lichtenberg. Most of the Spartacans fled from there to the southeastern part of the city proper, Strongly reinforced by recruits, they entrenched themselves. From these new positions their artillery now endangers a large portion of the city.

Meanwhile the insurgent forces remaining in Lichtenberg fell back to the railway station, where they organized new defenses. Detachment of a large part of the government forces to combat the Spartacans in the northeastern section of the city rendered capture of the Lichtenberg station a serious problem.

While the fighting gained in intensity the center of Berlin was the scene of gay social affairs, cafes and dance halls being crowded to capacity.

Inspector And Religious Enthusiast Held Under $2,500 Bail

Cumberland, Md., March 13.—Wilbur H. Johnson was held Tuesday afternoon by Justice Jacob B. Humbird in $2,500 for the action of the April grand jury, having plead a jury trial. He was unable to furnish bond, and went to jail. His daughter Eva, 17 years, is the prosecuting witness.

While Johnson has been employed as an inspector by the Baltimore and Ohio Railroad, he conducted religious service. Johnson some years ago had a device which, he claimed, solved perpetual motion. The device was exhibited in a theatre, and a number subscribed to stock in a company to exploit it.

DRY AGENT LOSES LIQUOR

Eight Men Charged With Holding up Officer.

Richmond, Va., March 13.—Eight men are under arrest in Richmond and probably will be taken to Hanover county to answer charges of highway robbery. They are alleged to have held up an agent of the Prohibition Department at the points of pistols and to have retaken 150 quarts of whisky the agent had seized a short time before on the road between Fredericksburg and Richmond. The men under arrest are C. F. Cuicci, C. F. Cuicci, Jr., William Parlar, J. C. Royster, A. Kramer, E. L. Nash, John Landers and Willie Bucher.

They were arrested in a garage by the Richmond police while unloading liquor from an automobile, it is said. They now face charges of transporting liquor.

The agent says that he was forced to give up the liquor by four men who rode in an automobile, and who were joined by a second party of five men.

PAYS DEPOSITORS

Unfounded Rumors Result in All-Day Run Upon Institution

Richmond, March 13.—Hundreds of depositors who pushed their way into the counting room of the Church Hill Bank from 10 o'clock Wednesday morning until 6 o'clock in the afternoon had only to present their checks and passbooks to obtain immediate payment of every dollar due them. From time to time during the course of the afternoon, runners from one of the strongest banks in Richmond hurried into the Church Hill Bank with large chests holding from $20,000 to $40,000 in order to furnish funds for those wishing to withdraw their accounts.

The run on the bank was caused by an unfounded rumor. This rumor is said to have originated among the colored populace of Church Hill and later to have spread throughout that section and to other parts of the city. It is said to have been whispered about for more than a week that the bank was insolvent. Why the climax should have come Wednesday morning may never be explained.

Al Whitman in "Desert Law"

Al Whitman plays the hero lead in Triangle's latest feature, "Desert Law" to be shown at the Grand Theatre tomorrow. Whitman is a superb actor with quite some reputation having played an important role with Nell Shipman, in "Baree, Son of Kazan.' He is tall, of athletic build, handsome and seems to find western roles ideally suited to his temperament.

In "Desert Law" he is called upon to do some shootin.' He plays the role of a homesteader who has aroused the jealosuy and envy of a ruthless political boss in a western community, Rufe Dorsey. Dorsey frames him up for murder and has him convicted when friends rescue Al and bring him to their cabin where, after a terrific battle with the sheriffs gunmen, the homesteader is saved. Jack Richardson is the featured "Heavy" in "Desert Law" and friends of Jack who have seen him shot some three hundred odd times in the pictures will again turn out to see their old pal get his'n.

IN MEMORIAM

In sad but loving remembrance of our dear husband and father, WILLIAM GORHAM, who departed this life 15 years ago today, March 13, 1904.

The rolling streams of life roll on,
But still the vacant chair,
Recalls the love, the voice, the smile
Of one who once sat there.

The flowers we lay upon his grave
May wither and decay,
But the love we bore for him,
Will never fade away.

Gone from life, yes gone forever,
Tear dimmed eyes shall look in vain
Until we reach that shining city
Then we'll meet our love again.
By your bedside we sat and watched you.
Pass from life to yonder blissful shore
Now we'll wait and trust in Jesus
Till we meet to part no more

By his sons and wife.

Telegram From Roper

The following telegram has just been received by the local office regarding the filing of returns.

Washington, D. C., March 10, 1919.
Collector Internal Revenue,
Roanoke, Va.

Every indication points to great congestion in work in collectors offices this week, daily increasing up to March 15th. Greatest difficulty will come last of week in attempting to personally serve the crowds of taxpayers who will call for personal attention at collectors offices. Very advisable to divert as many taxpayers as possible from bringing the returns personally to collectors offices to sending them by mail. Arrange immediate widespread publicity, calling attention to taxpayers to probable congestion at end of week of personal filing at collectors offices and urge everybody to mail returns tentative or otherwise accompanied by checks or other remittances for first quarterly payment. Specifically inform public that a tentative or regular income tax return deposited in any post office on March 15th will protect taxpayers from penalties and insure proper consideration of his return when attempt to file same personally on March 15th might prevent him, on account of congestion, from doing so.

Roper, Commissioner.

AFTER DRAFT DODGERS

Men in this State whose records indicate wilful evasion of the selective service statute will be prosecuted in the Federal courts to the limit of the law, District Attorneys have received instructions from the Department of Justice to deal summarily with slackers.

The report of the provost marshal general shows that out of a total registration in Virginia from June 5, 1917, to September 11, 1918, of 206,190 men, there have been classified as deserters about 7,000. More than 1,000 of these cases have been disposed of, either by prosecution or by clearing up in some way of the men's record, leaving 5,701 cases yet to be handled.

The policy of the department is to show no mercy to the men whose attitude toward the selective service law would indicate wilful evasion of their share in the war burden. Representatives of the government in the Old Dominion will go over the records furnished by the counties and cities and decide upon whom to bring to the bar of justice.

According to figures given in General Crowder 's published report, Virginia stands out prominently among States who answered with the least friction the call of the nation. Only 2.1a per cent of the men who came within the provisions of the law were classified as slackers. This gives the State the position of thirty-second in the list of States with respect to desertions.

NEEDLESS ALARM

Virginia authorities are agreed that "epidemic somnolence," or encephalitis lethargica, which appeared recently at several points in this state, is not generally a fatal malady. There is no need for any alarm over the situation, according to the state board of health.

Evidence that cases occurred in Germany in the seventeenth and eighteenth centuries, and Italy and Hungary in 1890 has been obtained. In nearly all countries of Europe and the United States the disease appeared in 1895; it was found in Austria in 1916 and 1917, and England last year. The cases were few and scattered, and no large outbreaks occurred.

The malady is probably due to a specific virus that enters and leaves the body through the mouth and nose.

Preventive measures are similar to those of other diseases carried by the secretions of the mouth and nose; that is, avoidance of the common drinking cup, putting into the mouth anything that may be infected by the secretions from the mouths of others, such as pencils, fingers, etc. Everyone should cover the nose and mouth when coughing and sneezing.

SPREADING BOLSHEVISM

Practically unknown to the general public, but with a vim and vigor that is causing the executive heads of police departments in various cities. considerable apprehension, advocates of Bolshevism are holding meetings in all sections of the country.

Everything, according to the speakers at these meetings, must be submerged in the interest of Bolshevism. All political parties, including, the Socialist, are condemned.

"We are supreme in Russia," said a speaker the other night in Baltimore, "and the Bolsheviki are getting control of Germany and England. But what is our ultimate aim? I ask you what is your aim and my aim and the aim of brothers across the seas? We must have the United States! Why? You and every other Bolsheviki knows. This is the country of wealth! The United States is the richest country in the world and we must take it."

SYNCHRONOUS HOLIDAYS

While Sinn Feiners and other Irishmen have been busy shouting home rule at the Peace Conference, the Jewish calendar glides up and drops the Jewish feast of Purim right on the one day of the year that Irishmen have called their own—St. Patrick's Day.

The shouts of "All Praise to St. Patrick," as they ring from Irish throats next Monday, will mingle with the solemn chant of the Hebraic ritual, and the flag of Erin, for long entwined only with the Stars and Stripes must be flown to the breeze alongside of the six-pointed star of Zion.

And maybe, the sons of the "Ould Sod" and the workers for a Jewish homeland will get together on the day, and, in one voice cry out: "Zion Go Bragh."

Meat: Russia and the Allies

Russia crumbled away and failed the Allies largely through lack of food, according to an American eyewitness.

With plentiful reserves and resources virtually untouched, her people starved at home and at the front because there was no adequate organization to place food where it was needed.

Animals on the hoof were shipped thousands of miles to the various fronts, wasting transportation facilities required for other purposes. They arrived shrunken and emaciated, to be killed and dressed amidst filth and confusion behind the lines. Half of those brought from Siberia, it is said, perished on the way; many more were unfit for food.

On the other hand, the American packers turned live stock into meat in large sanitary plants located in the producing sections, and shipped the product under refrigeration so that it reached the trenches in France in perfect condition, without waste.

Says Our Authority:

"Had such facilities for cold storage transportatior been available to the Russian supply committee as were placed at the disposal of the quartermaster of the United States by Swift & Company, there might have been a different story concerning Russia's part in the final drama of the war."

A large-scale packing industry would be an asset to Russia, in war or in peace, as it has proved to be to the United States.

The cost of this large scale industry in the form of profits is only a fraction of a cent per pound of meat.

Norfolkians Preparing to Freeze Hard Cider Into "Brandy."

Norfolk, Va., March 13.—Norfolk hardware dealers are telegraphing manufacturers of ice cream freezers for additional stock.

The reason is the information, which has been generally circulated in this section, that frozen hard cider will produce apple brandy. The process is to put the cider into an ice cream freezer and freeze it. The alcohol will not freeze and when the maximum amount of the cider is frozen what remains is almost pure alcohol.

KILLED BY LIVE WIRE

Charlottesville, Va., March 13.—Charles Jackson, colored, employed at the Chesapeake and Ohio roundhouse was instantly killed in the C. and O. yards about 8.30 one day this week. when he picked up a live electric light wire which had been broken from its fastenings by the high wind.

The broken arc light wire fell to the ground and was noticed by several of the employes. Jackson, who was near the scene, was warned by the foreman and several of his fellow employes not to touch the wire. He disregarded their warning, however, and walked across and picked up the wire. Death was instantaneous.

CELEBRATE WITH BANQUET

Members of Motor Transport Company No. 553 Soon to be Mustered Out of Service.

In a blaze of glory and a banquet which included every edible extreme, Motor Transport company No. 553, "went out" of the service of Uncle Samuel, last evening, and this morning are packing their old kit bags for the ride to Camp Holibard, Md., where they will be mustered out of the service and will be free to return to their homes and their pre-war occupations.

The boys entered the Monticello Cafe, where the banquet was served, as quietly as going into a church. The casual bystander failed to see where there was any merriment over the fact that they were going to be sent home, but as the evening advanced, so did the spirits of the men and the festivities were soon on in earnest.

Trucks and motors were entirely forgotten during the banquet dinner, which was a marvel of culinary art, and the boys gave their attention strictly to the task of disposing of it according to Hoyle. That they succeeded in the task was evidenced by the empty plates at the close of the affair and every man of the company carried away with him a remembrance which will probably stick for many weeks—namely, his last celebration with his comrades in the service.

Lieut. Harry Milton, commanding officer of the company occupied a post of honor at the head of the table, shared by Mrs. Milton, and at the same table sat the truck masters, assistants and other non-commissioned officers of the company. The tables were nicely decorated and in every respect the banquet was one of the most successful ever held in this city.

GERMANY'S SET BACK

Ludendorff Says it Will Require a Century to Gain Lost Position.

Germany will need a century or longer to regain military supremacy in Europe. General Ludendorff said in a Berlin interview received yesterday in diplomatic cables.

Ludendorff declared that the latest armistice terms strip Germany of her last vestige of power.

He asserted that the aid Germany had to give her allies was fatal and points out that proper co-operation by Austria would have made victory possible before American re-inforcements came.

"Failure of the Austrian offensive along the Piave last June marked the beginning of Germany's defeat," Ludendorff said.

"Germany was forced to send assistance against the Italian counter-offensive. Then I asked Emperor Karl for aid when Foch struck on July 18, Re-inforcements were imperative, but they were refused me."

Ludendorff names Von Moltke's "defective strategy" and War Minister Falkenhayn's "loose organization and lax intelligence service" as technical reasons for the German downfall.

NEWS OF THE DAY.

Nine persons were killed when a Dutch schooner was sunk by a mine. it was learned yesterday in Copenhagen. One member of the crew escape.

Chicago may be the first American city to equip police and civil authorities with gas bombs if Chief of Police Garrity's proposal is accepted by the city council.

"The Victory Liberty Loan campaign will open on Monday, April 21, and will close on Saturday, May 10," Secretary of the Treasury Glass said in a statement issued yesterday.

Construction of a tunnel under Behring Strait, establishing rail trade lines between Asia and the America continent, was advocated yesterday by James Wickersham, former Alaskan Delegate in Congress, who is in San Francisco on business.

The first aerial duel in history was arranged in Paris yesterday. Principals are Capt. Schreiber and Capt. Vaudecrane. They will use Nieuport single seat machines, equipped with machine guns. Their seconds, Capt. Wader and Pilot Babo, will take the air at the same time. Circumstances leading to the duel were not learned. The exact date of the encounter was not given out, but it was expected to be shortly.

"Negroes are in the Raleigh Hotel, Union waiters were locked out," is the sign borne on the hats of picketing waiters formerly employed in the Raleigh Hotel, in Washington. Following refusal of Manager Weston to meet with demands for more money and better working conditions thirty-five waiters employed at the hotel quit at midnight Tuesday, which marked the expiration of a year's contract containing conditions of the Waiters' Union.

One man was killed and another was severely wounded in a duel with rifles fought in a barn Tuesday on the Ardary farm at Glen Hitchie near Clearfield, Pa. District Attorney Arnold and Chief of Police Eddie, of Clearfield, were summoned to the Ardary farm by someone unidentified. When they arrived at the place they found the body of Lawrence Ardary, 21, with a bullet wound through the head. His cousin, Ralph Ardary, 21, was lying near a wagon with a bullet wound in the right shoulder. The police say that the two young men fought a duel with hunting rifles which were found by their sides. The cause of the trouble has not been learned.

Construction of a tunnel between Great Britain and Ireland is up again. With war restrictions gone, proponents of this plan see no reason for its delay. They point to the need of Irish butter, fish and linen arriving in England without the necessity of breaking bulk on the journey. The main value of such a tunnel would lie in bringing the Irish and British people into far closer contact than the present, politically as well as commercially. A saving of two and a half hours could be made in a journey from Belfast to London through such a tunnel, and it would, furthermore, mean a reduction of many hundreds of miles between London and New York.

Dispatches received in Paris from Berlin states that in official circles it is ascertained that Prince Lichnowsky will be appointed Ambassador to the United States as soon as peace is signed. Lichnowsky was German ambassador to Great Britain when the war broke out. He did everything possible to avert it. Returning to Germany, he published his memoirs, in which he placed entire blame for the war on Germany. These became public, and he was forced to flee to Switzerland. After the revolution he returned to Berlin.

George B. Williams, president of the Cosmopolitan Bank, in New York, reported to the police yesterday that $26,432 had been stolen from the vault during the night. The robbers had discovered the combination.

CLERKS STAY OUT

1,200 on N. C., and St. Louis Declare Auditor Must Go.

Atlanta, Ga., March 13.—Both sides to the controversy arising out of the walkout Tuesday of some 1,200 clerks on the Nashville, Chattanoga and St. Louis Railroad, remained firm last night in their determination not to give in.

B. L. Winchel, regional director, issued a statement yesterday saying the Washington officers of the clerks' brotherhood "state that the N., C. & St. L. strike is illegal because the men failed to use the good officers of board No. 3' in an effort to settle their grievances against A. P. Ottarson, Federal auditor of the road. "I urge them to return at once to their old places as far as now possible," the statement added.

The clerks walked out because of Mr. Winchell's refusal to discharge Ottarson, whom the clerks assert was discriminating against them. E. M. McGhee. local chairman of the clerks' brotherhood, denied that the Washington brotherhood officials were not supporting the strike, and asserted that the men would remain out not only until Ottarson was removed, but until they were assured that they would not lose their pay while out.

The tie-up of the N. C. & St. L. was virtually complete here yesterday.

ADMITS FLOGGING

Supt. Wood Says Chamberlain Tried to Escape; Is "Dangerus Man."

Richmond, Va., March 13.—Admission that Dr. Asa W. Chamberlain—former practicing surgeon of Iowa, now serving a life sentence in the Virginia penitentiary for the murder of his brother, Judge Albert P. Chamberlain, a former Des Moines attrney— had been flogged for attempting to escape was made yesterday by Superintendent James B. Wod.

The superintendent's admission came when he was informed that E. E. Dudding, president of the Prisoners' Relief Society, with Washington, D. C., headquarters, had filed a complaint with Gov. Davis. This complaint, which was in the shape of a letter, declared that "Dr. Chamberlain, who is 65 years old and a cripple, had been chained to a cross and left suspended for hours, until he lost consciousness," also that "as soon as he had sufficiently recovered he was lashed to a post and whipped.

Maj. Wood's explanation is that Dr. Chamberlain had attempted to get away on two occasions, and had been flogged for each offense. The first occasion, Maj. Wood said, was last summer when he stole a suit of civilian clothes and tried to make his get-away during the dinner hour. On the second occasion, according to the superintendent, he had secreted a rope in his cell which he had made from rags stolen from time to time from the overall and shirt shop. This attempt is said to have been frustrated before Chamberlain actually tried to put it into effect.

Maj. Wood denied that Dr. Chamberlain had received unnecessary cruel treatment. "He is a bad and dangerous man," remarked the major, "and I wish we did not have him with us. He has threatened the lives of several of the inmates and is regarded as a desperate character."

After slaying his brother, Dr. Chamberlain cut the body to pieces and then buried the various parts in post holes on his farm. No action on Dudding's complaint has been taken by the governor.

DEMANDS SPEEDY PEACE

Lansing Says Despotism of Anarchy Is Now Menace

Paris, March 13.—"We have reached a crisis in the affairs of the world" said Secretary of State Robert Lansing at a banquet given last night by the Interallied Press Caub in honor of the American Peace Commissioners. Mr. Lansing was emphatic in his statement that the Alies must feed Germany and give the Germans opportunity to sell their products in the foreign markets, if the danger of Bolshevism was to be avoided. He painted a vivid pocture of conditions in the war zone of France and pointed out that it was not through pity for Germany but to the Allies' own advantage to see that anarchy was prevented in the former German Empire.
